Attachments: Shiloh-Church-Road-QA Document Review Request Form 07142020b.pdf; Shiloh Church Road Removal AMP FSP 100820 Revision 04_all.pdf; Shiloh FSP review memo 200195.1 (002).pdf; Shiloh QAPP review memo 200196.1.pdf

Good Afternoon,

Attached please find Revision 4 of the Shiloh Church Road Air Monitoring and Field Sampling Plan. Also attached are the previous review memos and QA form.

The following summary addresses my response to comments:

Shiloh FSP Review Memo:

What thresholds are used for the radiological sampling and water sampling?

Response: As stated in Section 6.3 of the FSP, radiological sampling will not be performed as part of the FSP. Regarding thresholds for water sampling, EPA will follow the actions approved in the approved Action Memo, which has been added as Attachment 1 to the FSP/SSQAPP

Shiloh QAPP Review Memo

The QAPP references the DQO section of the programmatic UFP-QAPP for the START-6 Contract. However, that document states that a site-specific document should contain DQOs specific to the project. Therefore, the site specific QAPP should contain DQOs that are specific to the Shiloh Church Road Removal site.

The DQOs are included in the SSQAPP in Appendix C

Thank you for your review
Chris
